Horse Owners Attention

IMPERIAL STEAM COOKED HORSE FEED is made of whole corn and oats steam cooked and kiln dried. Most horsemen are convinced of three things before they begin to use Imperial Steam Cooked Horse feed, its SAFETY, HIGH NUTRITIVE VALUE and its HIGH DIGESTIBILITY. It is very high in DIGESTI-BLE NUTRIENTS and is surely PRODUCTIVE OF ENERGY and MUSCLE. INDIGESTION and COLIC are unknown troubles when your horses are fed on this diet. Water less than eight per cent, fiber less than four per-cent, carbohydrates seventy-two per cent. It takes about 2,300 pounds of raw grains to make a ton of Imperial Steam Cooked Feed which is put up in one hundred pound sacks, running about one hundred quarts to the bag. It takes three bags to a horse to give it a fair trial and watch results. For sale by

Among the Farmers

Autumn. There is something in the autumn that is native to my blood.
Touch of manner, hint of mood;
And my heart is like a rhyme,
With the yellow and the purple and the crimso

The scarlet of the maples can shake

October. October is the month when the farm-ers begin relaxation. It was not always thus. There was a time when it meant difficulty in working the land due to an increased amount of labor in the mat- rocks and possibly other factors. ter of harvesting. It is true there is some done in this month at the present wise to adopt two cropping systems: one time. Potatoes now-a-days are mostly area because of its suitability to hoed dug in September, but there is the apple crops any year, would be handled on a crop. That is always put off until Octo-ber because the peculiar atmospheric effect puts the blush to an otherwise green apple. Green may be a favored color of nature but it can only be endured during verdancy-during immaturity, and mixed timothy and clover, the other When the autumn approaches—when grain, clover, mixed timothy and clover, maturity approaches, other and brighter and mixed grasses until such time as it colors appear—more delicate and subtle.

October is held responsible for this.

Not only fruit receives its delicate tints differ from those of grasses in that the at this time but the whole atmosphere former when well established are able to Music Festival.

Out will be an organ program at the program as p has an iridescent tint which is imparted secure much of the necessary nitrogen to everything. Perhaps that is why directly from the air. They do require,

"October
Chose the opal for her birthday stone,
Because, forsooth,
The midday sun turns to gold
What the frost touches in the morn,
And combines a memory,
With the coming night,
Of the gold tints with the moonlight;
So, when the orb of morn lights the frozen
The misty softness flashes every hue
That life has brought
With gentle tenderness."

ing corn. Most of the corn planted in growth and normal development of the Maine is the sweet variety, which is har vested and canned in September—mostly. Plication of said phosphate will appear. of October on the farm—that is harvest- acid phosphate will insure an early began about 3:55 and continued about seen the photo engraving of the same vested and canned in September—mostly plication of acid phosphate will answer some filt is true yellow corn, such as our fathers knew and harvested in October, is desirable to add lime to correct acidity.

The raised to a limited extent, but it is bar- and insure a calcium supply for the ested and siloed in September. The clover.

seate where they must have canned corn, so farmers do not allow the yellow corn to get ripe but harvest it green just to please the feminine teste of the cown. Cows may have gained something by this change but the world has losts one deceased to the received from thing of the pioture que to say the least 10 October in the older disposal to the class of latterns in every barn on some night during this month, and they irred and the same of the stand, value of in attraction the fame hunters more of the size of the cown of the cown of the size of the cown of the size of the cown foor was cleared and another rural scene

was enacted, when ** * * a noise arose in the orchestra, They did not fox trot in those days

out kept up the rural atmosphere by Then there are the long evenings when one can cuddle close to a fire-an open one maybe-and forget the toil of the day—the backache, the legs ache, and the stiffened fingers in an account of the easier toil of some other people or the play maybe as recounted in a book for

"A book is just a house of thought
Where many things and people live.
Beyond its doors great things are taught
And all its dwellers give and give.
So walk right in through the open door,
You'll find in there a wondrous store
Of good things all for you to take."

Then there is always music-always has been music—the home made variety, and of late years the canned varietybut, oh, the dainties canned. They beat asparagus tips—the solos of the song birds on the stage and the string-singing of Kreisler. And now they have a greater wonder on the farm for fall evenings—the rediction of the breed, and grand championship for bulls of any age.

Not only did Jefferson Farms win on the radio: Canned music is not a necessial.

Springfield he won first in the aged of the stage and the string-singing class, tuen the senior championship for bulls, and finally the most coveted prize dent. But, in choosing the president, the vote shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members and Ann Arbor University Law School in Bethel on June 27, 1851, the son of Jarvis and Anna Twitchell Chapman. The artists can be heard first hand over miles of vibrating ether, with once in a while a squawk in the center of a selection just to let you know that the radio and the world era not class. that the radio and the world are not class.

Some farmers and farmerettes get so interested in the radio that they sit up all night, listening to their neighbors farther and farther away with each hour. The sets are getting stronger and clearer and maybe they think by and by they can hear before they go to bed, as a kind fourths.

"We pray the prayer the Eastern do
May the peace of Allah abide with you.
Wherever you stay—wherever you go,
May the beautiful flower of Allah grow.

Thru the days of labor and nights of rest May the love of Allah make you blest. So I touch my heart as the Eastern do, May the peace of Allah abide with you." Thunder Storms and Sour Milk,

Do you believe that thunder storms ause milk to sour? It is generally beleved they do. The souring of the milk s generally attributed to the electrical ion between clouds, which is responible for the lightning associated with thunder storms.

There is no relationship between these electrical discharges and the souring of milk. Some authorities report that electricity will destroy bacteria or retard their growth. In such cases electrical action would cause milk to keep longer. Souring of milk is caused by a growth of bacteria which feed upon the milk sugar and convert it into an acid when the milk is held at a warm temperature. to complete their payments. The acid sours the milk.

It is believed that the temperature

der storm cause the souring of milk, auses the milk to sour.

SOUTH PARIS

A pertinent criticism of the cropping system on many of the Maine farms, especially those outside of the primary po tato areas, is that the rotation is much too long. It is not uncommon to find a farmer in the dairy sections practicing an eight, ten, twelve year or even longer rotation. Even then there may be no systematic plan for planting a hoed crop

once in so often on each piece of land more commonly a piece is "taken up" than any of the others. Such a practic is not conducive to the upbuilding of so fertility as regards organic matter, and is not economical from the standpoint of

crop production.
This condition is brought about b cause of certain factors such as: (1) a imited acreage of hoed crops due to lack of labor, equipment and in some cases finance; (2) the necessity to plant certain areas on a wet year or a dry year depending upon soil conditions; (3) the type of crop, speculative because of dependency

Saturday evening.

however, a seed bed well supplied with nitrogen and lime. Clovers also use large quantities of phosphoric acid and considerable potash, while grasses depend primarily upon nitrogen needing less amounts of potash and phosphoric acid. In the case of the short rotation little

fertizer should be needed for the clover and timothy other than the residue from

Miss Carrie S. Tripp.

On Wednesday evening of last week there died in Hebron a remarkable wom-For more than forty years Miss Tripp Democrat from that town, and the readers of the paper can testify as to her versatility and the amount of news that can be gathered in a small town. A balf column was not an unusual contribution and whole columns were not infrequent. This was remarkable when one considers that of late years she carried the burden of four score years, and lived a little outside the village limits; but there was a beaten path to her door. If there was a beaten path to her door. She had practically spent her whole life in Hebron, and everybody who lived in the town or ever had lived in the town was her friend. Those who lived there called frequently, and those who had moved away never visited the town without calling. In this way she kept in out calling. In this way she kept in touch with everybody and everything in the town. She never grew old in spite of her 83 years, and was just as friendly and interested in the new arrivals as the old residents. The Democrat has it from Prof. Arthur L. Field that, although the teachers and hove at the though the teachers and boys at the academy were continually changing, she kept in touch with them, and there was nothing they prized more than an invitation to her house and a supper of old-

fashioned viands, viands only such as she could make.

Not being blessed with wealth, for many years she earned more or less money by cooking for the students; and her dougnuts, cookies and apple pies Mrs. William Garner and their two sons were freats and went like the proverbial hot cakes, as indeed they were. Mirs Tripp was the daughter of John to Mechanic Falls to live.

Tripp and was born in Hebron Sept. 10, 1841. She was the granddaughter of Rev. John Tripp, a Baptist clergyman, and first settled minister of the town. and first settled minister of the town and quite instrumental in founding Hebron Academy, so it can be readily seen what an interest she had in the town and its institutions, and having a good memory her mind was a storehouse of facts, which she double as the property of the town and first settled minister of the town and distinct the first settled minister of the town and minister of the town and minister of the town and quite instrumental in founding Hebron Academy, so it can be readily seen what an interest she had in the town and its institutions, and having a good memory her mind was a storehouse of memory her mind was a storehou what an interest she had in the town ford Corner spent a snort time outlook and its institutions, and having a good with her sister, Mrs. Bernard Putnam.

A Valued Correspondent Gone.

In the death of Miss Carrie S. Tripp of Hebron, which occurred on Thursday of last week, the Democrat has lost one of its oldest and most valued correspondents. Although her home was some distance from the center of population in the town, she had means of information which kept her in possession of much of the town, she had means of information which kept her in possession of much of the current news of the place, and this Pop Corn—Louise Gammon.

Buck.

Ice Cream—Maud DeCoster, Ella Perry, Verne Knightly, Cherry Noble.

Pop Corn—Louise Gammon.

was regularly chronicled. Of the personal worth of Miss Tripp there nearer her may write. It is the her faithful service as gatherer and disarpose here simply to give testimony to penser of local news. Those who have read the Democrat during the past years know that very seldom has the news from Hebron been lacking, and it is safe to say that if Hebron was not represented in any issue of the Democrat, there was good reason for it. Such service counts

for much. The service has been long, too. When the present proprietors took possession of the Democrat in 1885, there was a Ray Thurlow, Laurence Brown, Merle corps of local correspondents which in-cluded a number of men and women of local and more than local fame. In the thirty-nine years since that time those men and women have gone one by one.
Miss Tripp was one of the last, after
forty years or more of continuous and
regular service. On the list as it stood
in 1885, there now remains but one active The annual harvest supper under the correspondent-Sharon Robinson of East auspices of the Ladies' Social Union will be held Tuesday, Oct. 7, at 6:30 o'clock, Sumuer, a life-long writer for the Democrat, who at an advanced age still chronin the vestry of the Universalist church.

the scalded milk while stirring constantly, and continue cooking until the gelatine is completely dissolved. Meanwhile, using three eggs, separate the egg-yolks from the egg-whites and beat the egg-yolks until they are thick and lemon-colored. To the beaten egg-yolks add one-half cupful of sugar and one-eighth teaspoonful of salt, and when thoroughly blended, combine with the scalded milk mixture, stirring constant. scalded milk mixture, stirring constantly. Continue cooking the custard mix are, with the water in the bottom of the double-boiler barely simmering, until the custard thickens. Beat the three egg-whites until they are stiff and dry. Remove the thickened custard mixture from the heat and add one teaspoonful of vanilla and the beaten egg-whites. folding in the egg whites until they are thoroughly blended with the custard. Pour the cold water out of the mold or molds and fill at once with the Spanish Gream mixture. Set in a cool place and let stand until set. Unmold and serve at once. Fresh or canned fruit, and

Making Spanish Cream. Spanish Cream as a dessert is always

welcomed. Yes how often our readers

uery: "Why does my Spanish Cream to seldom have the three distinct layers

-a layer of custard on top, below this a

layer of jelly, and a layer of fluffy egg-white mixture on the bottom?"

Spanish Cream is a gelatine dessert,

and for this reason every care must be

taken in blending its ingredients before the mixture is allowed to stiffen. Even

before starting to prepare the dessert, a suitable large mold or the required num-ber of individual molds should be select

ed, filled with cold water, and placed in a cool spot until ready for use. Then

prepare the dessert mixture as follows Measure one level tablespoonful of gran-ulated gelatine and soak it in one-fourth cupful of cold water for five minutes.

Meanwhile scald two and three-fourths

cupfuls of milk in the top of a double boiler. Then add the soaked gelatine to

be scalded milk while stirring constant

chocolate or caramel sauce with finely chopped nuts added, are delicious sauces or Spanish Cream. For the Caramel Spanish Cream use the standard recipe but for this change: Increase the amount of sugar to three fourths cupful. Melt one-half cupful until caramel in color, then add to the scalded milk and stir until thoroughly dissolved. Add the remaining onefourth cupful of sugar to the egg-yolks and proceed as in the standard recipe.

Serving Fish in New Ways.

MINCED OYSTERS. cupful chopped cabbage 2 cupful chopped celery easpoonful onion 3 tablespoonfuls butter, fat, or oil 2 cupfuls water 1 pint small oysters, drained 1 cupful sifted, dried bread crumb

1-8 teaspoonful pepper 3 4 teaspoonful salt Combine the finely chopped cabbage, celery, and onion. Melt the fat in a frying pan and add the chopped vegetables. Cook gently, stirring occasionally, until the vegetables are well coated with the at, then add the water, cover the frying pan, and continue cooking until the vege-tables are tender. Meanwhile, drain the small oysters and cut them rather fine. Add to the cooked vegetables together with three-fourths cupful of the sifted bread crumbs, the eggs slightly beaten, oughly and arrange in a greased baking-dish, or in individual ramekins, with one-fourth cupful of sifted crumbs on top. Bake at 400° F. for fifteen minutes.

> CODFISH MOLD. 4 cupfuls diced, uncooked potatoes 2 cupfuls shredded salt codfish 1-S pound thinly sliced salt pork 1-2 cupful diced celery

1 1-2 cupfuls hot water 7 tablespoonfuls butter, fat, or oil 1 & teaspoonful pepper 1 cuptul finely diced, cooked beets 12 teaspoonful salt

2 hard-cooked eggs Wash the shredded, salt codfish and rain. Combine with the diced, unsooked potatoes and the celery, cove with boiling water, and cook until the potatoes are tender. Drain and press through a potato-ricer. Add three tablespoonfuls of the fat, the pepper, and two eggs well beaten. Beat this mixture until creamy. Then add the finely-diced, cooked beets, let cool slightly, and pack into a greased baking mold or baking dish. Cover with the thin dices of salt pork and bake at 400° I for twenty minutes, basting occasionally deanwhile, prepare an egg sauce as fo lows: Melt five tablespoonfuls of but-ter; add the flour gradually while stir-ring constantly. When bubbling, add the hot water, still stirring, together with the salt. When smooth and creamy, add the hard-cooked eggs chop-

ped fine, and serve over the fish mold. 1-4 pound salt pork

I teaspoonful salt

I tablespoonful chopped parsley 1-8 teaspoonful pepper 1-4 teaspoonful celery salt 3 small potatoes
20 small hard clams in juice
2 tablespoonfuls butter, fat, or oil

3 tablespoonfuls flour Dice the salt pork fine and let it try out slowly in a frying-pan. Then add the onion minced fine and cook until it takes on a golden brown color. Strain the clams and to the clam juice add enough water to make three cupfuls of liquid. Add this liquid to the onion together with the potatoes diced. Cook about twenty minutes or until the pota-toes are tender. Then add the hard clams cut in halves, the fat, salt, celery salt, pepper, and chopped parsley. Blend the flour with two tablespoonfuls of milk and add to the clam mixture while stirring. Last, add one cupful of cream. Meanwhile prepare a rich pastry, using one and one-half cupfuls of pastry flour, one-third cupful of shortening, one-half teaspoonful of baking powder, and one-half teaspoonful of salt.

Then gradually add enough cold water to make a soft dough—about three or four tablespoonfuls of water will be required. Pour the clam mixture into a greased baking-dish and cover with the pastry rolled to fit the baking-dish. Bake at 500° F. for fifteen minutes.

NEW CODFISH DINNER.

1 pint salt codfish flakes 2 slices of salt pork 1 teaspoonful salt 10 potatoes 12 cupful cream or milk 2 tablespoonfuls suet 1-2 teaspoonful paprika

Scrape the parsnips, cut in thick slices, and boil twenty minutes. Then add the potatoes pared and quartered lengthwise, together with more water if need-A. W. Walker & Son, Try out and brown the finely-chopped salt pork and suet, and pour over the dish just before serving. Garnish with pickled oucumbers.
